## RULES FOR WRESTLING RAW!

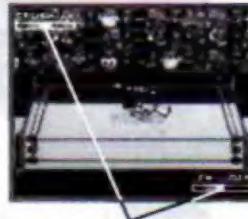

A ONE-ON-ONE one-fall bout finds two grapplers competing to pin the other's shoulders to the canvas for a three-count by the referee. Before a wrestler can be pinned, though, he has to be worn down. Strength meters for each wrestler appear on screen depicting exactly how much strength he has left. The lower the energy level, the better your chances at pinning your opponent. Remember: These are the world's greatest athletes, so that's a job easier said than done! When wrestling outside the ring, all moves are legal. As soon as a wrestler leaves the ring, the referee begins a 10-count. A wrestler will be counted out if he or she fails return to the ring before the count reaches ten.

BRAWL matches, whether one-on-one or tag team, are vicious matches without a referee. Anything goes. There are no pins and no disqualifications, only the will to win and the wiles to do so! The match continues until one competitor loses the strength to carry on.

TOURNAMENT play pits one wrestler against all the others in your choice of one-fall or tag team tournaments. In a tag team tournament, your duo must triumph over four other teams. The makeup of opposing teams and the order in which you face them are random.

TAG TEAM matches feature plenty of action and take plenty out of you! In order for one team to win a match, one of the wrestlers of the opposing team must be pinned. When the strength of your wrestler is low, it's time to tag your teammate, who will come in to replace you. You control the player in the ring.

SURVIVOR SERIES® matches pit four wrestlers against four other grapplers in a grueling contest of expanded tag team action. This is a chaotic contest where bitter battles follow one right after the other! All four men on one team must be eliminated in order to become the Survivor Series® champion!

Strength Meters

To view your offscreen teammates, press the START button to pause the game, then press UP or DOWN on the D-BUTTON to see who is available and to see their energy meter.

## BASIC MOVES AND MANEUVERS

Here are the essential basics you need to get started:

To move around the ring, press UP, DOWN, LEFT, or RIGHT on the D-BUTTON.

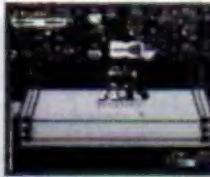

To leave the ring, use the D-BUTTON to move your man into the side ropes. [NOTE: In a tag team match, exiting the ring near your partner's corner constitutes a tag, and will bring your partner into the action.]

To PUNCH your opponent, press BUTTON 1.

To KICK your opponent, press BUTTON 2.

To RUN across the ring, press the D-BUTTON twice in the desired direction.

To get your opponent in a LOCK UP, press BUTTONS 1 and 2 while close to your opponent.

To TAG, walk into the ropes next to your teammate.

To pick up fallen opponent, press BUTTONS 1 and 2 when in front of him.

To pause the action, press the START BUTTON. [NOTE: Pressing the START BUTTON again will resume the action. Pressing BUTTONS 1 and 2 simultaneously will cause you to exit the match and return to the title screen.]

You can **DROPKICK** your standing opponent by first running at him (Double Tap D-Button), then pressing **BUTTON 1**. If opponent is running at you, you can dropkick him by pressing the **2 BUTTON**.

You can deliver a **FLYING ELBOWDROP** to your fallen opponent by first running at him (double tap the D-BUTTON), then pressing **BUTTON 1**.

When your opponent is lying on the mat and you're standing, you have five options:

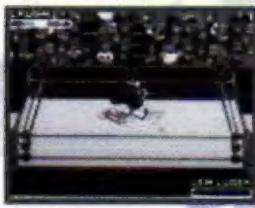

1) **STOMP** your opponent by pressing **BUTTON 2** while you're in front of your opponent.

2) **SPLASH** your opponent by pressing **BUTTON 1** while you're behind your opponent.

3) **ELBOWDROP** your opponent by pressing **BUTTON 1** while you're in front of your opponent.

4) **KNEEDROP** your opponent by pressing **BUTTON 2** while you're behind your opponent.

5) Try to **PIN** your opponent by pressing **BUTTONS 1 and 2** when in back of your opponent.

## WRESTLE DEFENSIVELY!

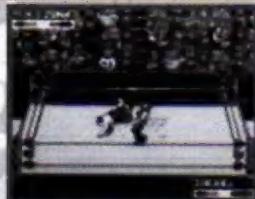

Sometimes, the best offense is a good defense:

If you find yourself losing a lock up, press **BUTTON 2** to try to break your way out of the lock up.

If your opponent drops you to the mat with his offensive attack, press **UP** or **DOWN** on the **D-BUTTON** to roll out of the way.

If you're being pinned, press any button to try to kick out.

If stunned, press any button to regain your wits.

In tag team and Survivor Series® bouts, keep an extra-close eye on your power meter!

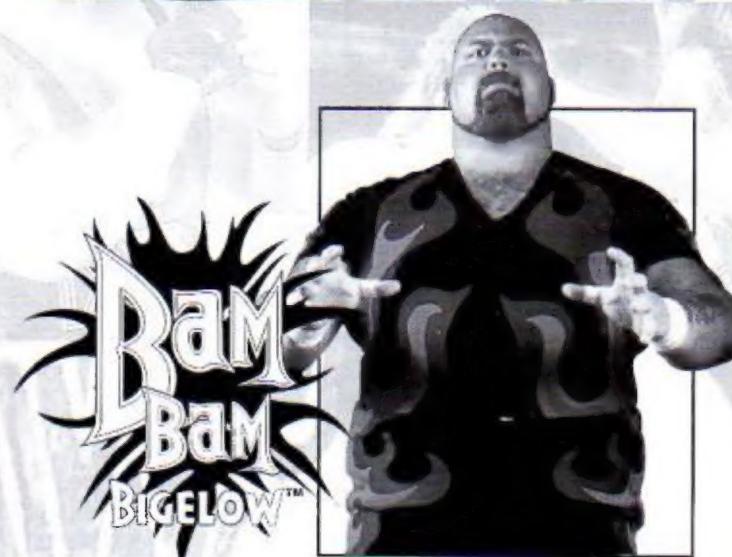

Try mixing up your attack to confuse your opponent! Blend running maneuvers and sure-footed offensive moves! When he thinks you're going to keep it on the ground, go to the air!

## SPECIAL MOVES

Every RAW wrestler has a punishing personal move he's perfected, a move that he unleashes when it's time to treat his opponent to a taste of fear and failure! Learn these moves and teach your opponents what losing feels like!

See a particular wrestler's profile to learn his move, or use the Special Moves Chart on page 20.
